Skilled frontend developer with extensive experience in developing and maintaining front-end applications. I excel at utilizing frameworks like React with state management libraries to ensure high performance and a seamless user experience. My strong foundation in computer science and web development, coupled with my keen eye for software design allows me to deliver visually appealing and functional web applications. I am passionate about continuous learning and staying on top of emerging technologies to deliver the best software product possible.

Skills:

Web development:

- **Framework and Libraries**
 - ReactJS, NextJS
 - Redux, React Hook Form, Zod, React mail
- **Programming Languages:**
 - Typescript, Javascript
- **Styling**
 - Tailwind
 - Responsive web design
 - CSS, SCSS, SASS
 - Bootstrap
- **Version Control**
 - Git and Github
- **Familiarity with:**
 - Design software: Figma
 - Programming Languages: Python, Java
 - Database: SQL, PostgreSQL

Projects:

Image Editing App in React

- Can add images, backgrounds, text and shapes
- Control all features of the elements
- Save and export as jpeg
- Used Next as framework

- Redux for global state management
- React context API for internal state management
- Tailwind CSS for styling (fully customized)
- Zod for form validation
- Written in Typescript

Academic Qualifications:

- Bachelors in Computer Science and Information Technology, BSc. CSIT, running

Work Experience:

Web Development Instructor

1/2024 – Present

Life Computer, Bagbazar

- Designed and developed comprehensive course materials, including lesson plans, coding exercises, and projects, for beginner to advanced students in HTML, CSS, JavaScript, and React.
- Guided and mentored students through their learning journey, providing personalized feedback and support to ensure understanding and skill development.
- Supervised student projects, from initial concept to final deployment, offering insights and corrections to improve their coding practices.
